

EXTENSION CARE

FOR LOCK IN SYSTEM

Brushing: Before washing, thoroughly brush hair, ideally with a special brush for extensions (Ask your stylist). You may also brush your hair after shampoo and spray it with a detangler spray, brushing the ends first and work your way up to the top of the hair.

Washing: You should never wash your hair “head over” (upside down). The best place to wash extensions is in the shower. When washing, you should only apply a small amount of shampoo on the top of the head and gently massage. Don't scrub! Most professional salon shampoos are self-cleansing, so just distribute evenly.

Drying: Never blow your hair dry on the highest setting. Extensions heat will dry out the hair and make it appear dull.

Client Do's

- Secure the hair with one hand while brushing on dry hair. Always brush ends first.
- Brush the scalp to keep the extensions clean at the root.
- Condition only from the ponytail down (not on the roots).
- Use spray detangler only on the ends to keep them silky and tangle-free.
- Blow-dry hair completely from roots to ends.
- Put hair in a soft braid before sleeping.
- Use recommended products only.
- Set up a shampoo and style appointment 2 weeks after installation of extensions

- Have a licensed professional remove and reapply your extensions.

Client Don'ts

- Go to bed with wet hair.
- Brush/comb when hair is wet.
- Condition the scalp with heavy conditioners.
- Brush upside down.
- Attempt to maintenance your extensions yourself.

Maintenance: \$200 per hour.

Please come to your maintenance appointment with your hair washed with shampooed only and dry hair.

Maintenance Time:

- **Fine hair** = 2 ½ months
- **Med fine hair** = 3 months
- **Coarse hair** = 3 ½ months
- **Removal** = \$200
